Welcome to the ISE 2022 July Monthly Update! These monthly updates are designed to provide you with important information and instructions for your participation at ISE 2022. Each month, you will receive this update from cs@iseurope.org or noreply.email@iseurope.org, so please ensure that emails from this address are not blocked and are added to your spam filter.

We are aware that many people are helping you with your preparations, so if you need assistance—whether as a colleague, contractor, stand builder or other supplier—to resolve these questions, please request it from the directly via unsubscribe@iseurope.org and we will be happy to assist you.

Best regards,
The ISE Team

Operations Update

ISE 2022 Stand Construction Manual
Building stands that reach out from the shores, is one of the key elements for many of your exhibitors. For this reason, we want to focus on some of the information you need to know before meeting the deadline on stand design. The ISE 2022 Stand Construction Manual contains all guidelines to designing your stand meeting all of the health and safety regulations. If you have any questions about the contents of the manual, please contact Servira directly on +34 921 371 854 or +34 93 271 2056, and they will be happy to assist you.

If you or your stand designers have any questions regarding pillar or height restrictions, please contact our Customer Success team at cs@iseurope.org or +34 93 271 2056, and we will be happy to assist you.

Alternatively, you can find more detailed information about the pillars by clicking the link below.

Enjoy!

Service Ducts
A service duct is a system from which all services are supplied. These services include electricity generation, water supply and waste treatment, air-conditioning, etc. as well as many other service operations.

Every service duct does not service every stand but it could serve all service ducts in the row, meaning it is really emergency. If a service duct is not connected to each other with any readable connections, they are managed independently. Please see the section regarding service ducts in the Stand Construction Manual for more information.

Branding, Sponsorships and Meeting Rooms
This year, ISE has enhanced its meeting and sponsorship opportunities beyond what we have ever seen at an ISE event. If you are interested in renting a meeting space, please contact Melissa Ortiz on isehotels@bnetwork.com or +34 93 5 500 350 for more information.

We are also very excited to announce the expansion of meeting room options at ISE 2022. If you are interested in renting a meeting space, please contact Melissa Ortiz on isehotels@bnetwork.com or +34 93 5 500 350 for more information.

This year, we have created more branding and sponsorship opportunities than ever before. The ISE team is working hard to put together some exciting packages that will certainly be needed at ISE 2022. In the meantime, if you have any sponsorship or meeting-related inquiries, please contact your Sales Manager and they will be happy to assist you.

If you have any questions about the contents of the Stand Construction Manual, please contact our Customer Success team at cs@iseurope.org or +34 93 271 2056, and we will be happy to assist you. Alternatively, you can find more detailed information about the pillars by clicking the link below.

SCAM Warning
We would like to warn you that there are several dangerous companies who take advantage of your stand and are trying to sell you products, services or even stand designs. These companies are not approved by ISE. Some of them offer services that do not even exist: for example, ISE never sells its exhibitor or attendee databases of ISE 2022 exhibitors or attendees.

These companies are not approved by ISE. Some of them offer services that do not even exist: for example, ISE never sells its exhibitor or attendee databases of ISE 2022 exhibitors or attendees.

We would like to warn you that there are several illegitimate companies active in the marketplace. Please contact us if you need assistance or have any questions about the contents of the Stand Construction Manual.

If you or your stand designers have any questions regarding pillar or height restrictions, please contact our Customer Success team at cs@iseurope.org or +34 93 271 2056, and we will be happy to assist you.

BNW Exhibitor Back Office
The Exhibitor Back Office (EBO) is the ISE Exhibitor portal where all crucial information relevant to your participation is located. In September, the EBO will be live and you will be able to login with your unique credentials. From October onwards, you will be unable to login. If you have any specific questions, please contact our Customer Success Team at cs@iseurope.org or +34 921 371 854 and they will be happy to assist you.
