Making places unique with compact DMPA amplifiers

AMC Baltic introduces DMPA series of amplifiers with integrated music player. These compact size devices use class D circuitry that ensures reliable low-heat operation. Internal music player for playing compressed audio files from SD cards or USB drives. Back-located external connections include AUX input, two microphone inputs (one of them with phantom power and input priority for paging needs), line and speaker outputs. DMPA can be used with 70 V, 100 V or 4 Ω speaker lines, making it a flexible choice for single zone installations in shops, gas stations, coffee houses or bars. Amplifiers are available in 3 power options: 60 W / 120 W / 240 W.

Visit AMC at stand 7-N205 to test the latest products.
