

On the occasion of the ISE2019, the ORAY Projection Systems team will be pleased to provide the new product catalogs in digital format.

Practical, the USB key holding both the catalog of projection screens and audiovisual accessories and the one of Home Cinema Seats is easily transportable.

You will be able to visualize our products everywhere or to present them directly to your customers and incorporate your notes and other documents.

In addition to the digital catalogs, we wanted to provide additional elements such as product sheets, manuals and additional visuals presenting ORAY products.

Direct access to our website www.oray.fr will allow you to contact us with a simple clic !
With the 2019 edition of our catalog, you will have the whole ORAY world and everything you need at your fingertips !

Come and meet our team on our booth 3-C90 to request your 100% digital catalog.

This action parallels our goals of responsible business and environmental initiatives.

Company Overview

Since 1947, ORAY Projection Systems specializes in design, manufacturing and marketing projection screens and audiovisual accessories.

Active in all fields, from theaters to schools, from congress centres to home cinemas, from businesses to simulators, all the projections or retro-projections are controlled and integrated into one of the most competitive ranges in the world. Present in over 50 countries, ORAY accompanies its distributors in their most ambitious projects.
