

CLEVERTOUCH

Celebrating 10 years of Clevertouch

at ISE 2019

Hall 13 stand D155

Champagne corks will be popping on the Clevertouch stand this year, as the company celebrates the 10th anniversary since the launch of its flagship touchscreen.

When Clevertouch unveiled its pioneering new technology in 2009, the world's first interactive touchscreen, it took the market by storm and remains the leading large format interactive display.

See the 'Enterprise Ecosystem' in a live-environment

This year at ISE will see the launch of the 'Enterprise Ecosystem', the complete collaborative solution designed for the team working regardless of the location. For the past 12-months, the Clevertouch development team has been focused on researching and developing the ultimate enterprise environment for business and are excited to reveal the 'Enterprise Ecosystem, a mix of real-time collaborative platform that enables participants to work together seamlessly in an open environment no matter where they are located or device they're using, whilst ensuring that the company's underlying networks remain totally secure.

The Clevertouch team will be on hand to give one-to-one demonstrations of the feature-rich solution, which includes video and voice conferencing, screen sharing and mirroring, file sharing, infinity whiteboarding, remote on-screen annotation, digital messaging, instant alerts, room booking system and the enterprise-wide SedaoLive Cloud signage app.

See the collaboration tools working across a number of screens including the E-Cap, Capacitive Touch and Plus Series from Clevertouch, as well a SedaoLive video wall.

Join us to celebrate Clevertouch's 10th birthday

You can't have a birthday without a glass of bubbles and a slice of cake. To celebrate a decade of Clevertouch we'll be hosting a drinks reception on our stand between 4pm and 6pm every day. Everyone's welcome, so please drop by and join us for a drink and meet the Clevertouch experts and senior management team who will be on hand to answer your questions.

End

About Clevertouch

Clevertouch is an award-winning British manufacturer of large format interactive touchscreen panels for collaborative education and business environments.

Unlike other manufacturers, Clevertouch does not believe in a one-size fits all approach. Before entering a new vertical, the development team first research the needs of the individual sector and then design and develop the perfect display.

CLEVERTOUCH

Technology in business is nothing new but the demand for real time collaboration and feedback for your workforce is becoming an everyday requirement. Clevertouch has responded with a range of interactive collaboration touchscreen, each one featuring a ready-to-use integrated 'Enterprise Ecosystem' delivering video conferencing, screen sharing, remote annotation, whiteboarding, digital messaging, room booking and on-screen alert solution.

Press information:

Invitation to journalists: Please drop by the stand or book a timeslot for a one-to-one demo of the entire collaborative 'Enterprise Ecosystem'. Introduce yourself to the 'on-stand team' to receive a free glass of champagne and a complimentary gift from Clevertouch.
