tvONE showcases 4K multi-window processor, CORIOview, at ISE 2019

Margate, Kent, UK, 24 January 2019 - tvONE (tvone.com), a leading designer and manufacturer of cutting-edge video and multimedia processing equipment, is showcasing the now shipping [CORIOview](#), the award-winning, intuitive 4K multi-window processor with up to 8 sources at stand 1-M140 at ISE 2019.

CORIOview is an ultra-compact, next-generation 4K multi-window processor that allows for each of its eight inputs to be viewed in any of the eight video windows with ultra-low latency, making it the ideal solution for IP streaming as well as AV, Broadcast and legacy inputs & embedded or S/PDIF audio outputs.

This easy to use, plug and play solution features 16 front panel buttons for preset recall or source selection, making usability a breeze. Become the instant expert when using the unique 'info button', which displays on screen information of your source and window selection. For more advanced applications, take full control with tvONE's CORIOgrapher software which allows for user-definable or pre-programmable presets, video and audio switching, audio delay and logo insertion.

CORIOview received AV Technology's Best of Show award at InfoComm 2018.

###

About tvONE

tvONE is a world class developer and manufacturer of video conversion and AV signal distribution technology, with offices in the US, and R&D and manufacturing facilities in the UK. tvONE provides a complete line-up of products and services for the professional AV, broadcast video, and digital signage markets. Following the global merger of tvONE and Magenta Research in July 2013, the company tvONE now encompasses these two superior brands under one umbrella.

The tvONE brand specialises in video, audio, and multimedia processing equipment, based on its proprietary CORIO® video conversion technology. Products include all-in-one system solutions, windowing processors, scan converters, seamless switchers, video scalers, up/down/cross converters, analog-digital converters, including SD/HD-SDI, HDMI, and DVI, format converters, and standard converters.

Magenta Research is the industry-recognised brand for the transmission, switching, and flexible distribution of multi-format video, audio, and auxiliary signals over fibre and Cat-X cabling. Products include AV extenders, distribution amplifiers and matrix switchers for DVI, HDMI, VGA, and component, composite, s-video, audio, USB, and RS-232 signals.
