

**Press release 19.12-3**

## **IDK IP-NINJAR Warrior**

IP-NINJAR Warrior is the new model of the visionary IP-NINJAR series for event and staging applications.

IP-NINJAR is an SDVoE-based AV-over-IP solution for high definition signal extension via fiber optic cables. This 4K solution leverages 10 Gb Ethernet switches and enables signal management of 4K@ 60 (4:4:4) signals with zero latency. RS-232C bidirectional communication and LAN transmission are also supported.

The IP-NINJAR Warrior features a rugged chassis with preparation for truss mounts and industry standard Neutrik connectors. The IDK NJR-W01UHD can be used with other IP-NINJAR products. Combined with the NJR-R04HD, 4K@60 signals that are sent from the NJR-TW01UHD can be divided into four full HD signals and be displayed on sink devices.

When using the NJR-T04HD and the NJR-RW01UHD together, four ports' full HD signals that is sent from the NJR-T04HD can be displayed as 4K@60 signals on a sink device.

## **About IDK**

IDK Corporation, headquartered in Yamato Japan with sales, fulfillment and service operations in USA, Europe and Asia. As a customer-focused, Pro-AV equipment manufacturer, all IDK products are proudly designed, developed, manufactured, and rigorously tested at our own facilities. As the global Pro-AV market is tiring of low quality rebranded products from "difficult-to-qualify" sources, IDK is being identified as the go-to for genuine, unique and robust solutions – both for baseband as well as AV over IP. With a comprehensive portfolio of products that are built to perform and last, IDK is being recognized and embraced as the better alternative worldwide.
