

FOR IMMEDIATE RELEASE

## VIVITEK AND DELTA DISPLAY SOLUTIONS CELEBRATE TOGETHER AT ISE 2019

*Vivitek and Delta Display Solutions to showcase wide range of AV solutions, including new large format, display products, novelties in wireless collaboration and a broad range of visual solutions*

Hoofddorp, 17 December 2018 – At ISE 2019, Vivitek, a brand of Delta, together with Delta Display Solutions, invites new and existing customers to Celebrate Together, as it marks ten years exhibiting at ISE and ten years presence in EMEA. To honour this occasion, both respected brands will showcase new products ranging from meeting and large venue projectors to large format display devices, wireless collaboration and digital signage solutions. All can be seen on stand 5R60.

### **Unveiling new high brightness projectors**

One of Vivitek's ISE 2019 highlights will be a new laser projector that boasts breakthrough brightness levels using single-chip DLP technology. It delivers a brightness performance only previously achievable when using traditional 3-chip technology. Vivitek's new flagship projector in the DU9000 series will use laser-phosphor illumination to provide durability and colour accuracy, while the projector also comes with a choice of optional lenses to provide installation flexibility for any new or existing environment.

### **Offering the most complete choice for wireless collaboration**

Additionally, Vivitek will display its full range of wireless collaborative NovoConnect Solutions that bring easy connectivity and facilitate cooperation for any boardroom, conference and meeting rooms. New to ISE 2019, will be the all-in-one wireless collaboration systems including the ever-popular interactive NovoTouch panel range, which will also become available with a Capacitive Touch high-accuracy touch function. An industry novelty will be a new projector with the NovoConnect solution embedded. This completes the range of all-in-one and standalone choices to retrofit or newly equip any meeting room with the best wireless access and collaboration.

Vivitek will also demonstrate NovoTouch's new LiveScreen function, a recently added feature that provides the ability to connect up to five screens in different rooms. With the NovoConnect range delivering cross-platform compatibility – including support for Windows, MacOS, Ubuntu, Android, iOS and Chromebooks - it further facilitates the Bring Your Own Device environment for added employee and workplace flexibility.

### **Reliable and durable Delta Video Wall solutions**

Bringing further excitement to the booth will be Delta Display Solutions' FE Series, with its range of LED solutions for indoor and outdoor displays. Showcasing on a sample wall, Delta's LED Wall Solutions deliver excellent image quality and uniformity thanks to their fine pixel detail, whilst being highly reliable and durable. The LED Wall Solutions excel in high ambient light environments, both capturing the audience's attention and making for a highly memorable viewing experience. Also showcased will

be a 2x2 LCD wall with a narrow bezel of 0.9mm, and a 3x3 LCD video wall. As these products demonstrate, Delta's LCD video wall displays are an ideal solution for demanding, yet space-constrained control rooms. Delta's LCD displays can be stacked together to achieve virtually any screen size, setting a new standard for large format, high-impact display solutions.

Visitors to the joint Vivitek - Delta stand can also view and experience the performance of Delta's video wall cubes in UHD 4K resolution and laser-phosphor technology designed for control room environments. Video source, camera, and content are increasingly in 4K, while Delta's 4K monitoring map area can be up to four times wider than HD offerings - making it ideal for control rooms where detail is everything. Delta's considerable experience in video wall technologies ensures reliability and durability in many 24/7 applications, and can be depended on to bring control to even the most challenging of events or environments.

### **Celebrate Together – 10 year anniversary**

Commenting on its presence at ISE 2019, Holger Graeff, General Manager, Vivitek EMEA, said: "Celebrate Together represents 10 years of our presence in EMEA and at ISE, and we are excited to mark this milestone with new and existing customers, partners and installation professionals alike. Today, Vivitek and Delta present the broadest range of display solutions in the industry, and whatever the application or environment, customers can be assured that our solutions offer class-leading performance, reliability and value for money. This is what makes Vivitek and Delta the brands of choice for wireless collaboration and large venue and video wall applications."
