

# **M** DH-610

## Striving For Perfection

**DH 610** is a two-hook headworn microphone with goose-neck hooks. The goose-neck hooks can be adjusted 360 degree to fit user's head shape for comfort and the shape mimics real human ear. Whether your head is big or small, round or rectangle, you can always adjust the hook in any direction to fit on ear comfortably. The hook is made of soft plastic, which provides more comfortable wearing experience

DH 610 Sample
