

### **ANGEKIS – 4K ALL IN ONE, USB Video and Audio Bar.**

We keep it simple for you huddle space. Just one plug n play cable gives you wide-angle video and crystal clear audio through the quad array microphone and speaker system.

Let the All in One do the work with group auto-framing and single speaker tracking which automatically tracks the speaker.

Crystal clear 4K imagery combined with a 5x zoom and 120 degree no distortion FOV, ensures everyone in the room is captured with clarity.

When we say best in class audio, we mean it. Featuring echo cancellation, dynamic noise reduction, full duplex, dsp audio processing and a 4x microphone array, you're virtual meeting will feel like an intimate in person one.

All this come packaged in a stylish Belgian designed form factor that fits neatly and discreetly above or below your flat panel.

Come and see it for yourself at the AngekiS, **Stand 11-G160**
