

AREC to Bring AV-over-IP Total Solutions to ISE 2019

AREC will showcase our AV-over-IP total solutions and new products for the lecture capture, corporate training, and AV interaction & collaboration market. Sincerely invite you to visit us at booth **13-F140 in Hall 13.**

New Portable Media Capture Set

The unique compact design allows users to bring the set wherever it's needed. Different options are available, for example:

- Portable set of Media Station, Wireless Cameras and Microphone, and Auto-Tracking Set
- Portable set of Media Station, Auto-tracking Camera, Positioner/Microphone and PTZ camera

Creative SG-1 Media Collaboration System

To meet the remote teamwork communication requirements in today's corporate or education environments, AREC will introduce our creative and powerful SG-1 Media Collaboration System. SG-1 system can bring people together from different places for audiovisual communication, content sharing, collaboration and recording in the same time, enabling remote meeting or training in an effective and user-friendly way.

Welcome to experience, enjoy and be excited by the perfect performance of AREC AV-over-IP Solutions. Discover AREC at ISE 2019 (13-F140, in Hall 13).
