For immediate release

**Introducing the new ZoneMix from ARX Systems - the 1RU Multimedia Zone Mixer with all the inputs and outputs you'll need – and more!**

**Melbourne, Australia, 16<sup>th</sup> January 2019:** Launching at ISE Europe (Amsterdam, Feb 5-8th 2019 Booth 5-Z120), the new ZoneMix from ARX Systems is a multi-channel Mic/Line Zone Mixer that has been designed to cope with the variety of audio sources found on multimedia devices today. This unique product is both intuitive and user friendly and features Wireless audio, USB *and* MiniJack inputs, 2 Mic/Line inputs, stereo line input, and Zone 1 and 2 Stereo Master level controls.

Packed with inputs, outputs and control features in a compact 1RU unit, the ZoneMix offers a Wireless audio receiver, a USB connector and MiniJack inputs - each with their own individual level controls. Each Microphone channel on the ZoneMix has a Balanced Low Noise Mic input plus individual Gain and Level controls. The Mic input can be switched to be a Line input as required and the Stereo Line Input 3/4 has a rear panel input trim control, as well as front panel output level controls. There are also Zone 1 and 2 Stereo Master level controls and the Zone 1 and 2 Stereo Master Output XLR connectors can be switched to Mono if required (using rear panel switches). For ease of use, the front panel has LED indicators for Wireless audio, USB active and AC power and LED output level meters that show -30dB - 0dB and Clip on each set of Zone Outputs.

Visit ARX on booth #5-Z120 at ISE 2019.
