

Press Release

Flagship Year for Allsee as They Open New UK and EU Headquarters

Date: 8th January 2020

PR Contact: Thomas Fraser-Bacon (Marketing Director)

Email: thomas.fraser-bacon@allsee-tech.com

Stand: 8-C160

Following the launch of a wide array of innovative new products in 2019, including our Battery Powered Digital A-Board, our Super-Slim Hanging Double-Sided Displays for windows and our Low-Voltage Rod Powered Displays, we are proud to announce the opening of new UK and EU Headquarters.

Our new UK offices, warehouse and showroom facility was officially opened in August by Her Majesty The Queen's Lord-Lieutenant of the West Midlands, John Crabtree OBE, and High Sheriff of the West Midlands, Mr Michael Kuo. The special opening ceremony was attended by team and family members as well as partners and suppliers.

The purpose built state-of-the-art facility is 20,000 square foot in size and can hold over 1,600 pallets. This allows us to meet the demands of our growing network of global partners. The relocation also allows for continued growth of our UK based R&D, sales, marketing, support and logistics teams.

Just a few months later we officially opened our new EU offices in Oostende, Belgium. This will serve as a central hub for all our European customers. As well as providing local support to our EU partners in Dutch, French Flemish and English this office also features showrooms and meeting rooms. Since opening the office the European team has already expanded and have experienced rapid growth.

Allsee Technologies Managing Director and founder, Dr Baoli Zhao, had the following comments about the current stage of the business:

“Our current expansion is not exclusively focused to the UK market but also overseas and especially in Europe. In addition to our new UK and EU offices we are also currently setting up another team in India so we can expand into the Indian market as well. All of these achievements are down to all our loyal partners, our suppliers and our dedicated team and their family members.”

If you would like to visit either our UK or EU showrooms please email marketing@allsee-tech.com or give us a call on +44 (0)121 421 4458.

About Allsee Technologies

Allsee Technologies have offices and warehouse facilities in Birmingham, United Kingdom as well as Oostende, Belgium. Founded in 2007 Allsee has quickly developed into market leading Digital Advertising Display Manufacturer with an impressive Blue Chip client portfolio. To meet the demand of our global distribution network of partners, our factory in China has the capability to produce 2,000 displays every day, ranging from digital advertising displays, freestanding digital posters and touch screens to LCD and LED video wall displays. Our success has been driven by our focus on delivering supreme quality, market leading customer service and unparalleled industry expertise. We are the only manufacturer committed to simplifying the emerging technology of Digital Signage for our customers.
