Sonifex Show New Dante® Interfaces at ISE 2019

DIO01 Dante to Analogue
XLR Stereo Output

DIO04 Dante to Analogue Phono
Stereo Input & Output

DIO07 Dante to AES3 BNC Stereo
Input & Output

DIO02 Analogue XLR Stereo
Input to Dante

DIO05 Dante to Analogue Terminal
Block Stereo Input & Output

DIO08 Dante to AES3 Terminal
Block Stereo Input & Output

DIO03 Dante to Headphone Output
With Volume Control

DIO06 Dante to AES3 XLR Stereo
Input & Output

DIO09 Microphone Input
to Dante

At the end of last year Sonifex announced new Dante commentary units, which will be available in March 2019. At **ISE stand 10-K167** Sonifex is launching its range of DIO Audiophile Dante® Interfaces which are Dante Domain Manager compliant.

The **DIO Audiophile Dante® Interfaces** are simple plug and play audio interfaces provide a convenient and elegant method of connecting legacy analogue and digital audio equipment to the Dante AoIP audio network. **What's the difference between these units and others? The audio quality.** Sonifex are using A/D and D/A circuitry that's 10 times better than similar competing products, offering >120dB of dynamic range.

If you're converting audio sources into AoIP, it makes sense to use the best converters that you can afford, to benefit the whole network. These cost effective products provide the answer. Using Dante Controller for configuration and powered by PoE, these rugged aluminium boxes have side slots for screw mounting and contain superior audio circuitry for optimal audio performance. In addition, they use rugged Neutrik EtherCon® connectors and Neutrik lockable audio connectors for ultra-reliable connectivity.
