

## **ACME OXOZONE — A LED moving head beam & wash light**

ACME OXOZONE CM-800Z IP is the answer with a wide far-reaching quality wash & strong beam in the large-scale performances, no matter indoor or outdoor.

The powerful OXOZONE adopts 19pcs 40W RGBW LEDs, Individual LED control for each parameter by different DMX channels, making it ideal for graphic lighting effects. This outstanding color macro effect cooperated with pixel control mode, to get better color homogenization.

The ratio of unique optical system is 1:6.7, with electronic linear zoom system, OXOZONE features a wide zoom, ranging from 6° to 40°, makes the light spread keeps even & smooth during the zooming.

At the smallest zoom angle, its beam is narrow and concentrated, good for mid-air effects. At the largest zoom angle, can creates a wide far-reaching quality wash. These functions make OXOZONE become two-in-one luminaire.

To settle the lighting requirement of large-scale performances, the power of OXOZONE reaches 990W, its dimension is 384x240x524mm, net weight 26kg. With rapid and accurate Pan/Tilt at 540 and 235 degrees, featuring 16 bit movement and automatic position correction.

OXOZONE is a high-performance moving head, integrated powerful beam and wash features, with uniform color mixing & IP65 protection rating, it is no limit to use in outdoor & indoor, can fulfills various venue and applications, such as live stage environments, TV studio, worship, performing arts, etc., which is special designed for professional lighting show!
