

NOTA DE PRENSA DE ABSORBRELLA:

When became in started working in the world of acoustics, we realised that there were a lot of solutions to improve the acoustic conditions indoors, making places for comfortable by removing noise. However, when we have to face the outdoors noise, there aren't as many solutions due to the complexity of limiting spaces.

ISINAC has launched its own patented solution on the market, ABSROBRELLA, a simple system which is adaptable to any standard parasol, it reduces the noise created by pub and restaurants terrace by between 3 and 5 db. So ending bothersome noise to neighbours in the flats above. ABSORBRELLA offers stylish nice and improved acoustic comfort.
