

**Legrand Integrated Solutions adds Guest Room Management System & MyHOME in its portfolio
Booth 2-C50**

Belgium, January 2020 – Legrand Integrated Solutions started to implement in its portfolio Guest Room Management System solutions and MyHOME, next to the already known audio and lighting solutions. ISE 2020 will be the event where the customers will be introduced to the new brands & systems.

Legrand Integrated Solutions works towards tackling the international market with the unique perspective that's necessary to help the customers to meet their most challenging control and automation project demands. The company continues to support direct system Integrators and subsidiary in finding the best solution to meet their customer requirements through defining the best system architecture, driver development, integration between different group Legrand systems or third party. Adding **Guest Room Management Systems & MyHOME** it's an historical decision that will significantly enlarge the potential of fully supporting larger cases through all the necessary products and tools, leading to successful integrated projects.

Guest Room Management Systems

Thanks to Guest Room Management System, different scenes can be set in each guest room for a new and unique experience. The objective is to consistently satisfy guests' needs and expectations in their rooms. They will appreciate the ability to control the lighting, the curtains, the temperature and the fan control unit easily through the user friendly interfaces. A brand new set of dedicated room controllers. Complete, user-friendly, customizable controllers along with touch technology make these products the most innovative solution for hotel room management.

MyHOME

Through a wide range of devices, MyHOME offers simple and efficient solutions to meet safety, comfort, energy-saving and communication needs which are applicable in any type of home and tertiary sector. MyHOME is also the answer to the latest low energy consumption requirements in buildings; its different applications in fact allow the creation of systems that meet the requirements of the highest energy efficiency class for buildings. Through the use of intelligent and programmable electronic devices, MyHOME makes advanced features, difficult to achieve in traditional electrical systems, become accessible in a simple and personalized way.

Vantage, Nuvo, AT ISE 2020

35-years of precise control and aesthetics serving integrators, designers and homeowners, Vantage brings innovation and control of LED and Human Centric Lighting solutions including Circadian rhythm for the most natural lighting. Also the New EasyTouch Glass low voltage keypads will be new at ISE 2020. When performance and profitability matters, audio professionals choose Nuvo - the award-winning line of speakers and multi-room audio solutions are purpose-built for professional installations. This year at ISE, Alexa voice control for the Nuvo Player Portfolio, powered & architectural subwoofers.

Legrand Integrated Solutions's business objective will continuously evolve in order to incorporate additional Legrand product lines that serve a wider number of vertical markets. The official launch of the two new brands in Legrand Integrated Solution's portfolio will be done during Integrated Systems Europe 2018, Amsterdam.
