## Amphion Krypton3: Super AV Magazine (China) 'Popularity Award'

---

Shanghai, China, January 15, 2018 - Amphion Loudspeakers' flagship model - [Krypton3](#) has been awarded a 'Popularity Award' for Outstanding Excellence by Super AV magazine in China. The magazine has a more than 25-year history and is considered among the most influential media in the Chinese-speaking region - Mainland China, Hong Kong, Macau.

Each year Super AV magazine holds an annual home audio gear audition to select the most popular and consumer-approved equipment in China. "Super AV's editors had the chance to experience Krypton3 floorstanders at several shows in 2018, and have always been fascinated by the sound quality," says Gary Zeng of [AV Style](#), Amphion's home audio distributor for the region. "Their high evaluation gives us, and the consumers, even more, confidence in the qualities of this high-end product and the whole Amphion's line of home audio speakers," adds Zeng.

## 影音极品器材大奖 SUPER AV AWARDS 2018-19

### Amphion Krypton 3

座地式扬声器 优秀奖

Amphion (芬兰之声) 是北欧小国芬兰的音响品牌。相信国内绝大部分音响迷所接触的都是它的入门级或中端级别的书架音箱，不过大家别以为Amphion的产品就不够Hi-End，其实，Amphion也有非常顶级的产品。正如这次获奖的Krypton3座地式扬声器就是最好的证明！用上了Amphion最好的材料和技术，完全称得上是Hi-End级产品。Krypton3是Krypton系列中的第三代产品，外形和尺寸跟之前的型号并没有太大的区别，其改良的重点在于喇叭单元和箱体结构方面。Krypton3，主要的变化就是在原来Krypton2的基础上对箱体结构以及分音器进行了改良，这样不仅

能减少音染，还能让单元与单元之间的衔接更完美。2只8英寸的纸草振膜中低音单元和1只钛膜高音单元组成了“哑铃式”单元排列结构，这个结构主要是模拟点音源发声。同时，这3只单元所负责的频段宽达30kHz-160Hz，基本上涵盖了绝大多数的声音频率，采用纸草振膜的目的是提高单元的反应速度。同时，又能提高单元的灵敏度，让功放驱动起来更轻松。而这种振膜是采用纸草这种植物制作而成的，故被称为纸草中低音单元。扬声器箱体设计能巧妙地将10英寸低音单元安装在箱体的左右两侧，这样一来不但好看，而且还更便于对音箱进行摆放。Krypton3作为Amphion的旗

舰扬声器，融入了Amphion的全部精髓。其清新亮丽的音色及优美的音乐表现力演绎出动人且富有内涵和深度的音乐，是一款让人十分着迷的扬声器产品。

Super AV magazine says: “Being the flagship speaker of Amphion, Krypton3 incorporates the full essence of the brand. Its fresh and beautiful sound and lovely musical expressions are exciting and full of connotation and depth. It is a very fascinating speaker product.”

**Krypton3:** A reference-level, 3-way full-range speaker. Due to its controlled dispersion and cardioid enclosure, it works even in challenging acoustical spaces. Two 8” mid-woofers, specially made with Amphion’s proprietary tooling, create midrange authority and headroom that every music lover should experience first-hand. A fast and tuneful, low-reaching bass along with a precise midrange renders acoustical spaces with uncanny reality. Mid-woofers are isolated from the rest of the cabinet in perforated, cardioid chambers. This creates a cardioid dispersion pattern and radically reduces the midrange reflections and ensures that the speakers work closer to their optimum in every room. Owning a Krypton3 is like having your favourite band or orchestra perform for you in the privacy of your own home.
