

Introducing the All-New X-Series at ISE 2020

PRO DVX
THE ART OF DIGITAL VIEWING

XSERIES

ProDVX will introduce seven exciting Premium Integrated Android SOC Touch Displays at ISE 2020: the X-Series! Known for its outstanding design and cutting-edge technology, the X-Series is ideal for applications in Retail, Corporate, Industrial, Hospitality, Healthcare, Government, Education and many more markets.

THE X-SERIES

The brand new, state-of-the-art X-Series consists of Premium Integrated Android SOC Touch Displays, in seven different models. All displays come with Android 8, Power over Ethernet (PoE) and 16 GB Internal Storage. Screen sizes are 7, 10, 15 and 22 inch. The 15 inch display is available from Q3.

These are professionally designed and manufactured All-in-One Touch Displays with Embedded ARM processor. The X-Series is already available, so be sure to get in touch with our team or check out the information on our website to find out more!

PRODVX @ ISE 2020

Since 2004, ProDVX has been making the difference for its clients with valuable solutions. First and foremost by leading the way in product development and through a diverse and innovative product portfolio. The X-Series is on show at ISE 2020. Would you like to learn more about the X-Series? Check out booth 8-G435 or take a look at www.prodvx.com!
