

# Sound Control Technologies

2019 New Product Press Releases

**RC7-PD2™** Available Q1, 2019

Sound Control Technologies introduces the new RC7-PD2. The RC7-PD2 supports the Polycom EagleEye Director II and Group Series codecs. Providing power, RS232 control, Ethernet connectivity, analog audio and 1080p video on a single shielded CAT6 cable up to 100 meters, the RC7-PD2 provides a “transparent” link between the Director II and codec. An integrator friendly HDMI distribution amplifier is incorporated at the head-end/codec module for 3<sup>rd</sup> party integration. The RC7-CE module integrates seamlessly with SCT’s RCR-PD2 wall mount for a clean customer installation. A 2 RU rack shelf is included for the RC7-HE module.
