2019 New Product Press Release

RC7-CQC™ Available Q1, 2019

The RC7-CQC supports the Cisco Quad Camera and Codec Pro, Codec Plus and SX80 codecs. Providing power, Ethernet connectivity, analog audio and HDMI 1080p video on a single shielded CAT6 cable up to 100 meters, the RC7-CQC provides a “transparent” link between the Quad Camera and codec. An integrator friendly dual HDMI distribution amplifier is incorporated at the head-end/codec module for 3rd party integration. The RC7-CE module integrates seamlessly with SCT’s RCR-CQC wall mount for a clean customer installation. A 2 RU rack shelf is included for the RC7-HE module.
