

INSIDE-OUTSIDE WITH THE SOUNDCAST VG10

Soundcast are pleased to use ISE 2019 to officially launch the highly-anticipated VG10 – the world's first premium, portable, outdoor Bluetooth speaker with DTS PlayFi technology.

DTS PlayFi enables the VG10 to be paired with over 30 different interoperable speakers, sound bars and receivers in the Play-Fi ecosystem to enable the user to enjoy high-quality lossless audio in *any* listening environment. Featuring 10 hours of battery life and the weatherproofing which Soundcast is known for, the VG10 enables listeners to utilize DTS PlayFi technology in the outdoors for the first time ever.

The VG10 is truly feature-packed and as well as Bluetooth, also benefits from Airplay, Alexa compatibility, Indoor/Outdoor IQ selection as well as the premium drivers and digital amplifiers to provide the great sound quality that Soundcast is known for. Two VG10s can also be paired for a premium home theater experience indoors or out.

SOUNDCAST are exhibiting with their sales partners AV EMEA BV on stand 1Q-113
