

## LUMI Introduces NEW Indoor Digital Signage Kiosk Stand

Indoor Digital Signage Kiosk Stand [LDS01-55F](#)

LUMI (Lumi Legend Corporation – **Hall 1/2, Booth 1-E60/E70 & 2-E60**), the leading exporter of A/V Mounting Solution products, is pleased to introduce the new indoor digital signage kiosk stand LDS01-55F.

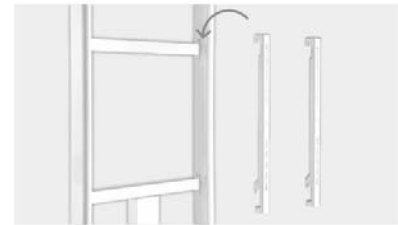

Featuring an aesthetically pleasing frame design, the new kiosk stand offers a range of applications, including advertising and information displays. The LDS01-55F accommodates large sized displays from 45" - 55" and can firmly hold up to 80kg (176lbs). Installation is easy – simply hang the display within the mounting frame, apply power and video content and in minutes you'll have the perfect advertising display solution. The anti-theft design offers a built-in accessory cabinet that keeps equipment hidden and safe. Nicely designed cable management offers a channel for wiring that provides for an organized and clutter-free look.

Modern design offers an attractive eye-catching display for customers and passersby. The new LDS01-55F kiosk stand is a perfect digital signage and advertising solution designed for many scenarios- from corporate to retail to hospitality, and beyond.

Holds up to **80kg/176lbs** with a sturdy, modern, eye-catching design

**Lockable Accessory Cabinet**

**Hanging Mount** for faster installation

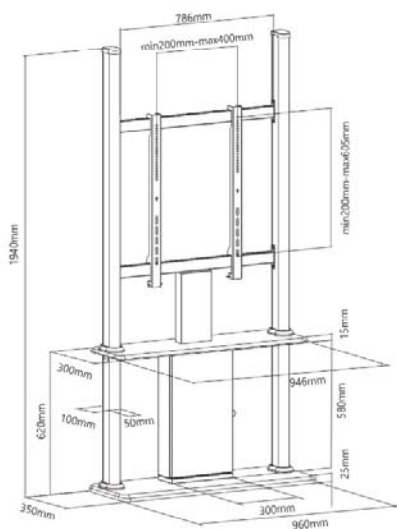

**Anti-Theft Protection** provides additional security (extra padlock required)

**Hidden Cable Management** protects and hides power and data cable

**LDS01-55F**
