

# R2

## The Best Software for Equipment Rentals, Labor Scheduling and Inventory Maintenance

Developed with collaboration with leading and well-respected companies from all over the world.

A flexible, user definable solution that can be configured specifically for your company.

Simple and easy to learn so your team is live in hours.

Simplify screens and only see functionality and fields relevant to your operations.

Fast and accurate no matter how large your data grows.

## Key Operational Benefits –

- Real Time Equipment Availability and Check in and Out.
- Maximize use of owned gear. Minimize cross rentals.
- Minimize equipment repair costs and turnaround time.
- Schedule drivers and trucks including e-signature.
- Plan, schedule and communicate with Labor resources.
- Multi language and currency for international operations.
- Business conditions and rules for critical alerts.
- Custom reporting for focused analysis.

Please visit with us and learn more at Booth (14-B135).

The entire R2 team look forward to welcoming you at ISE Amsterdam.
