

TrueConf to Launch New Video Collaboration Solutions at ISE 2020

15 January 2019, Moscow

TrueConf, an award-winning video conferencing and collaboration provider, announces its participation in ISE 2020 with the worldwide debut of its new video collaboration solutions. From 11 to 14 February, visitors to TrueConf's booth 13-D150 will have the opportunity to experience how TrueConf's latest products can transform enterprise communication at the Education Technology Hall.

Plug-and-play video conferencing system

The highlight of the show, TrueConf Group, is a powerful video conferencing endpoint based on open standards. TrueConf Group is designed for the ultimate video collaboration experience and is equipped with a built-in MCU that delivers high-quality video and premium audio clarity. The solution goes in bundle with AV devices that can be used to equip any meeting room, regardless of its size. TrueConf Group fits into TrueConf's existing ecosystem and is fully compatible with TrueConf video collaboration solutions, giving customers the flexibility to run video meeting with up to 300 participants, set up integration with Active Directory and much more.

Secure team collaboration platform

ISE attendees will be the first to witness the new TrueConf video collaboration platform that will definitely boost team productivity. The new solution will be perfect for enterprise users who would like to migrate from Microsoft Teams to a secure on-premises messaging platform without sacrificing collaboration. TrueConf's offering will allow teams and groups to quickly communicate using any device from anywhere, hold multiple conversations with different teams at the same time, invite additional people to join conversations and much more! Come and experience the future of collaboration with TrueConf.

TrueConf MCU

Finally, this year at ISE TrueConf is announcing a new software MCU designed to connect legacy video conferencing systems from multiple sites. Visit TrueConf and experience the future of enterprise video conferencing!

“This year is our lucky 7th time at ISE, and we are ready to strike our guests and partners with TrueConf’s game-changing video collaboration products,” comments **Dmitry Odintsov**, CEO at TrueConf. “Our growing line of enterprise-grade video conferencing solutions addresses the unique needs of different environments and users, bringing true collaboration without limits to any organization”.

Press and analysts attending ISE 2020 can receive a live demonstration of TrueConf’s video collaboration solutions during a special press event on TrueConf’s stand 13-D150 on **Tuesday, 11 February, at 12.30 PM**. Press briefings can also be scheduled anytime outside this date by prior arrangement.
