

Background information

Hanshin is committed to providing excellent one-stop ODM/OEM service to customers, which includes custom design, develop and manufacture services for interactive teaching system. Using cost effective planning and manufacturing solutions, we aim to provide the best product and service to our customers. Moreover, Hanshin is certified under the ISO 9001, ISO 14001, CE, FCC and ROHS standards in order to maintain excellent quality control.

Hanshin is with a broad range of products, which covers two categories, “Interactive Education Solution” and “Smart Retail Solution”

- Interactive Education Solution

Our “Interactive Education Solution” aim to advance classroom atmosphere and interactivity between students and teachers in order to enhance student’s learning ability and also their motivation toward learning. Products include the interactive whiteboard, multi-touch panel, voting system, document camera, projector, and other audio-visual components.

- Smart Retail Solution

Our “Smart Retail Solution” aim to bring “O2O” concept to the market in order to increase marketing opportunities and reduce business operation cost for our customers. Product includes vending machine with 49” LED Finger Touch Screen that support wide range of applications and it is available to sell specialized products in our machine. For the vending machine series, we have the classical one HSNV-M38 (723mm depth) and the slim design one HS-854 (400mm depth). For the Kiosk, we also have different kiosks to suit our customers need.

Our experienced and professional R&D team continuously develops new and innovative products to satisfy customers’ needs and allow them to stay competitive in the market.
