

# Newline Will Present the New NWC at ISE 2019

Newline is gearing up to showcase the latest solution in interactive display technology, the NWC. Designed to unleash creativity and upturn the way teams work, no matter where they work, NWC comes equipped with new software solutions and features to revolutionize the collaborative space and adapt to the needs of every individual user.

The NWC will be joining Newline's extensive line of interactive displays, a guarantee of highly responsive and intuitive touch, vivid image quality, and a user-friendly interface. The highlight of the NWC is the sensor-enabled ecosystem, which will allow the display to adapt to your space and transform it into a smart meeting room, tailored to meet all your needs for optimized collaboration.

Save the date and register with Newline's invitation code (915766) for free entry. Get ready to witness a collaborative revolution at ISE 2019. See you there!

Newline Stand: #11-B170
